

October 8, 2020

Dear parent or carer

We have been advised today that the WisePay payment system has experienced a cyber attack.

This has meant that WisePay has not worked for the last few days. WisePay have also notified us that some details from individual accounts may have been compromised and we attach a letter from WisePay concerning this. There are also details about how to reset your password which we advise you to do.

We have requested information from WisePay as to which accounts may have been affected and await that information from them. We are very concerned that this has happened and will be reviewing our online payment provision. As we know more we will keep you informed.
